Introduction

No other chapter of American history has been so voluminously recorded as the American Civil War. Even today, more than 130 years after General Robert E. Lee and the remnant of his loyal, starving army bowed to inevitable defeat at Appomattox, the Civil War continues to fascinate people the world over. What draws us to that terrible conflict is not the struggle over slavery or states' rights, but the human drama it unfolds. The real war was experienced every day by those who fought it and by their families at home. The personal source materials for this conflict include letters, diaries, autobiographies, memoirs, and reports published in books that number into the thousands. Today, more than a century later, thanks to these published letters, memoirs, and documents, we can experience the conflict first hand through the words left us by those who lived through it and by some who died in it. This massive array of materials is invaluable to researchers, Civil War scholars, and others interested in this period of American history.

Every war generates a large number of official documents, and the Civil War is no exception. In fact, it prompted many more documents than previous American wars. The *Official Records of the War of the Rebellion*, for example, runs to 70 volumes in 127 parts plus general index and atlas. A great number of documents in this series reveal personal accounts of the combatants, often written just after the event.

There are also numerous collections of Civil War letters and diaries, many written by prominent officers, men of considerable literacy, who were quite conscious of the historical importance of the conflict. Almost every general seems to have published his "Memoirs" of the events.

First-hand accounts from the Civil War vary both in form and in reliability. Narratives and letters are most reliable as sources, with personal diaries and journals following closely in descending order. Personal narratives written specifically for publication are for various reasons suspect; they are the least credible of all the genres that report facts and events.

Civil War Diaries and Personal Narratives is a selective compilation of diaries, letters, memoirs, and personal narratives of the common soldier—many times witnessing the conflict on a grand scale—published as books between 1960 and 1994 and held in the general collections of the Library of Congress. Accounts published before 1960, but reissued with expanded introductions, are also included. Books that are only reprints of previous publications are not included.

This bibliography is arranged by author, and an index is provided which lists the regiments in which the writers served, the battles they described, and the subjects about which they wrote. The compilation supplements these earlier Civil War bibliographies: Ellis Merton Coulter's *Travels in the Confederate States*, 1st ed. (Norman: University of Oklahoma Press, 1948), 289 p.; Charles Emil Dornbusch's *Military Bibliography of the Civil War* (New York: New York Public Library, 1971–), v. 2 and Garold Cole's *Civil War Eyewitnesses* (Columbia, S.C.: University of South Carolina Press, 1988), 351 p.
